

## SUCTION BOX

Extra heavy duty, all 316 stainless steel fabrication eliminates:

- Thermal distortion
- Vibration problems
- Deflection problems

Suction Box consists of the following parts:

- ❖ Frame
- ❖ Supports
- ❖ Cover

### Salient Features:

- Rigid, vibration-free box construction.
- Precision machined top surface with Foils and "streak-free" dewatering.
- Acid-proof frame SS2343 (AISI 316) or similar.
- Universal rotational mounting bracket.
- Slotted cover, plastic or ceramic.
- Adjustable suction width.
- Vertically adjustable.
- Vacuum gauge on tending side.
- Suction connection on the drive side and connection to pipeline without flanges.
- Hinged cleanout door on tending side.

### Advantages:

- Rigid and vibration-free construction.
- Variable adjustment of suction width.
- Available for all machine widths and speeds.
